Dear Gaye

I've been wanting to send you a note for a while as we've been really feeling for you and the rest of the staff during this difficult time. I can only imagine it's been hell for you all. [unclear] and [unclear] have been to a number of child-care centres and we still think of the staff at the Civic (with the obvious exception of one staff member) as being the warmest, and most caring of children and parents. We don't blame ourselves, the Civic or the Council for what happened, no matter what mistakes any of us made. We blame Peter and whatever dark forces drive him. I hope you are keeping yr head above water and are getting support.

Best wishes to you and the rest of the staff. Please pass on our regards and message of support. I hope the creche survives and keeps the special character which attracted us to it in the first place.

Love from

[unclear]
