Dear Martin

Further to our meeting of 19 June 1992.

During our meeting of 19 June 1992, I highlighted my concern about parents' unresolved anger against the City Council management and the Civic Creche staff, mainly Gaye as supervisor.

Parents are requesting a forum with key council staff to address their concerns directly and have their questions answered.

In planning for this meeting I recommend you and Alister attend some supervision sessions.

I have identified the following areas which I believe may be useful to cover in these sessions:

1. Personal feeling and thoughts related to the inquiry.
2. General education on sexual abuse.
3. Identification of organisational responsibilities e.g. employment practices, supervision accountability.
4. Planning strategies for handling proposed parents meeting.

I have taken the liberty of briefly discussing my ideas with

Mr Richard Wheeler  
867 Colombo Street  
CHRISTCHURCH

phone 791-787.

SYDENHAM

He is an experienced counsellor, known to the council and very interested in assisting with this process.

I urge you to take this opportunity for supervision.

Regards

  
Gen Crossen
