Yes - I agree with you. We will need to get clear undertakings from Prof Davis and his research assistant about the use they can make of the tapes I'm happy for you to reply.

Val: See attached email messages from Sir Thomas and Prof Davies. Shall I reply to Sir Thomas, or do you want to? His suggestion to wait at least a day or two for the replies from Dr Sas and Prof Warren seems sensible. I also thought we should take up Prof Davies with his provisional timeline of November. Finally, clause 13B of the Evidence (Videotaping of Child Complainant) Regulations seems broad enough to allow Prof Davies' graduate assistant to view the tapes and transcripts, provided that the sole purpose is to assist with the provision of advice about Mr Ellis's application for a pardon, and that any of the material is not employed at a later stage for another purpose (eg publication).

Michael, please see the attached message from Prof Davies.

I guess we should wait a day or 2 for other replies?

I'm sorry, I can't conveniently ring you for a few days owing to a sitting of the GM Commission. Would appreciate a message from you meantime.

Thanks for the further tape.

T.E.
